

STEVEN SAEED SHAWKY MAHROUS

JUNIOR FULL-STACK .NET DEVELOPER

Phone: +20 127 904 2510 • Location: Minya, Egypt • Email: stevensaeed10@gmail.com
GitHub: github.com/steven1tech • LinkedIn: [linkedin.com/in/steven-saeed-075b57387](https://www.linkedin.com/in/steven-saeed-075b57387)

01. CAREER OBJECTIVE

Junior Full-Stack .NET Developer with hands-on training through **DEPI** and **ITI**, and practical experience from academic and personal projects. Proficient in **C#, .NET / ASP.NET Core, SQL Server, MongoDB, JavaScript, HTML, CSS, Bootstrap, REST APIs, and Git/GitHub**. Also experienced in **Node.js, Express.js, Socket.IO, and Unity 2D**. Seeking to contribute to a collaborative team while building scalable, maintainable software.

02. EDUCATION

Faculty of Computers and Information <i>Minya University — Computer Science</i>	Expected Graduation: 2028
• Key Coursework: Software Engineering, Data Structures & Algorithms, Database Management Systems (SQL/Oracle), Systems Analysis & Design, Object-Oriented Programming (C++/Java).	

03. EXPERIENCE & TRAINING

Full-Stack .NET Developer Trainee <i>Digital Egypt Pioneers Initiative (DEPI)</i>	2026
• Built full-stack web applications using .NET technologies and SQL database integration. • Applied OOP, REST APIs, database design, debugging, and clean-code practices. • Worked with frontend technologies to create responsive, user-friendly interfaces.	
Full-Stack .NET Developer Trainee <i>Information Technology Institute (ITI)</i>	2026
• Strengthened practical skills in C#, .NET, web development, databases, and software engineering through hands-on training.	
Junior Developer & Software Projects <i>Academic & Personal Projects</i>	2024–2026
• Designed hospital and restaurant databases using SQL Server and Oracle. • Developed desktop, web, backend, and game projects using C#, Java, JavaScript, PHP, Python, Node.js, and Unity. • Practiced database integration, CRUD operations, APIs, real-time communication, debugging, and Git/GitHub.	

04. CERTIFICATES & ADDITIONAL LEARNING

- **Full-Stack .NET Development Track** — Digital Egypt Pioneers Initiative (DEPI), 2026
- **Full-Stack .NET Development Training** — Information Technology Institute (ITI), 2026
- **Full-Stack Node.js Development Training** — Bright Future, 2025
- **Additional Learning:** Unity 2D Game Development — Code Monkey (YouTube)

05. TECHNICAL & SOFT SKILLS

Backend & Languages:	C#, .NET, ASP.NET Core, Node.js, Express.js, PHP, Python, C++, Java
Web & APIs:	HTML5, CSS3, JavaScript, Bootstrap, DOM Manipulation, Responsive Web Design, REST APIs, Socket.IO
Databases & Data:	SQL Server, Oracle, MongoDB, Relational Database Design, ADO.NET, Entity Framework / EF Core, LINQ
Tools & Platforms:	Git, GitHub, Postman, SSMS, Unity
Game Development:	Unity 2D, C#, Gameplay Logic, Game Systems
Core Competencies:	OOP, Data Structures & Algorithms, Problem Solving, Clean Architecture, Systems Analysis, Debugging
Soft Skills:	Communication, Teamwork, Adaptability, Critical Thinking, Fast Learning, Self-Learning, Curiosity, Working Under Pressure

06. PROJECTS

- **Game Store Website** — Full-stack .NET web application with database integration, authentication, CRUD operations, and responsive UI.
- **XO Multiplayer Game** — Tic-Tac-Toe project using Node.js, Express.js, Socket.IO, and real-time communication concepts.
- **Rocket Landing — Unity 2D** — 2D Unity game developed with C#, implementing player movement, landing mechanics, game logic, and interactive systems.
- **Hospital Management Desktop App** — C# desktop application for managing hospital-related data and operations.
- **Hospital & Restaurant Databases** — Academic database projects using SQL Server and Oracle, including relational design, queries, stored procedures, and triggers.
- **Java Ping Pong & Frontend Game Website** — Academic projects demonstrating Java game programming and responsive frontend development using HTML, CSS, JavaScript, and Bootstrap.
